beeco

Don't just claim it. Do it, measure it, show it.

beeco is an award-winning Hungarian green lifestyle app and community. We turn employees and residents into a swarm of real, measurable green action, and hand you the numbers to prove it.

Why now

Green claims need proof

- **EU 2024/825:** since 27 Sept 2026, unproven generic green claims and offset-based claims are banned.
- **CSRD after Omnibus I:** mandatory above 1,000 employees and EUR 450M turnover; most others report with the simpler VSME standard.
- Companies need concrete, verified action. That is what beeco delivers.

How it works

Engage. Measure. Show.

Engage
People act, playfully: water trees, build nest boxes, complete app challenges.

Measure
Every paid package includes an Impact Report with sources and method.

Show
Campaigns, press, in-app visibility and verified sentences to use.

For companies & cities

beeco@work
Your team in the app: green challenges, shared footprint, nectar competitions, monthly Impact Report.

Watering Swarm
Corporate tree-watering days in Hungary's first community tree-watering campaign. June to September.

Bird Swarm
Nest boxes, feeders and bird walks with BirdLife Hungary (MME). October to March.

City package
Tree watering, bird protection, local green map and resident programmes, with a yearly report.

Partner program
Green shops on the map, with coupons that bring conscious customers through the door.

Green marketing
Campaigns and content built only on verified claims, plus campaign sponsorship.

Impact Report

Numbers you can publish

You can say: "Our team gave 12,400 litres of water to 42 young trees in Budapest in summer 2026."

You can't: "We are an eco-friendly company." (generic, unproven)

You can't: "Our watering offsets our emissions." (offset claim)

Sample figures. Every report links to its method and sources; SDG 11, 13, 15 and VSME data points.

Track record

Trusted and recognised

- ONE Digital Award 2025, 1st place (green category)
- F6S 2025: 2nd most outstanding sustainability startup in Hungary
- EIT Climate Launchpad international finalist · MVM Edison 3rd place
- Partners: E.ON, FŐKERT, BirdLife Hungary (MME), 10 Million Trees

Sources: App Store and Google Play listings; Volunteer Tree Watering 2026 closing release, Oct 2026. The app is currently available in Hungarian.
